

Table of Contents

1. Roshchupkin S.N., Petrash A.N., Lelyakov A.P. The exact solution describing movement of a null-string in Majumdar-Papapetrou space-time	3
2. Lelyakov A.P. Boundary conditions for the gravitational field produced by a closed null-string, of constant radius.....	11
3. Fridman Yu.A., Klevets Ph.N., Voytenko A.P. The influence of the magnetoelastic interaction on phase states of U ₂ Co ₁₅ Si ₂ alloy film.....	20
4. Fadeyeva T.A., Rubass A.F., Volyar A.V. Quadrefringence of the vortex beams in birefringent crystals.....	30
5. Dzedolik I.V., Lapayeva S.N., Vershitsky V.I., Markova L.S. Control of optical vortex phase by external electric field in the dielectric resonator	57
6. Alexeyev C.N., Lapin B.P., Yavorsky M.A. The higher order optical vortices and topological phase in coiled anisotropic elliptic fibers.....	67
7. Basiladze G.D., Berzhansky V.N., Dolgov A.I., Milyukova E.T. Transformation of the fiber cores under conditions of weak and strong fusing of optical coupler.....	75
8. Yevstafyev O., Preobrazhensky V.L., Perno P., Berzhansky V.N. Explosive dynamics of three-phonon instability in magneto-elastic system FeBO ₃	81
9. Ryabushkin D.S., Neroda E.S. Two-pulse echo in dynamic molecules of water.....	94
10. Ponomarenko V.I., Popov V.V. Lattice of thin magnetic wires in rectangular waveguide.....	98
11. Suchikova J.A., Kidalov V.V., Sukach G.A. Investigation of a chemical compound of a porous surface n-InP (111).....	107
12. Chuklov V.A., Yagupov S.V., Strugatsky M.B., Postivey N.S. Thermal fluctuations on the stage of Iron Borate FeBO ₃ crystallization.....	115
13. Yagupov S.V., Strugatsky M.B., Postivey N.S., Kostulin S.S. Application of differential-thermal analysis for research of solution-in-melt crystallization.....	121

14. <i>Yevdokimov S.V., Yatsenko A.A., Yatsenko A.V.</i> Simple amplifier for pyroelectric measurements.....	125
15. <i>Stadnyk I.P., Filippov D.M.</i> Optimization of parameters of a linear induction motor with a smooth stator of the maximum condition of the start-up traction.....	131
16. <i>Lyashko D.A., Lyashko S.D.</i> Use of crosscorrelational method for determination of fundamental parameters of stars.....	139
17. <i>Shaposhnikov A.N., Berzhansky V.N., Prokopov A.R., Karavainikov A.V., Milyukova E.T., Golub V.O.</i> Crystallization of RIBS-iron garnet films.....	146
18. <i>Vishnevskii V.G., Nedviga A.S., Nesteruk A.G., Berzhansky V.N., Dudarenko I.V.</i> Thermomagnetic recording information in epitaxial ferrites-garnets, and its use in phonoscopic examination.....	158
Information About Authors.....	174
Table of Contents.....	182
